Chapter 11 Case No. 09-50026 (REG)  
March 29, 2011

Sirs:

I am the owner of 400 preferred shares of General Motors (Cusip 370442766) purchased in 2002 through Kirlin Securities and transferred to Fidelity Investments in May 2004.

This investment was to supplement my Social Security, and I regard it to be a contract between General Motors -- a major US corporation -- and myself. Instead, through no fault of mine, it has been entangled frozen for years in legal proceedings for the benefit of General Motors, remaining dormant throughout that duration.

I have not received disclosures of the Court's decisions, hence I was unable to vote on the various "Plans." I now accept the Court's decision on the Second Amended Joint Chapter 11 Plan (ECF #9836), and anticipate that the Court would rule justly.

Details of my holding:

400 Preferred stock of General Motors, Cusip 370 442 766  
Pfd -- 7.35% -- due 10/1/2051  
Held in my name of Dania Dorram  
At Fidelity Investments, Account Z43-266175 as of 5/25/2004

Very truly yours,

  
Dania Dorram
